

Dual Roller Blinds

*Dual Rollers are
Sunscreen by day and
Block out by night.*

*Use any combination of
fabrics to achieve the
right results.*

*With the Block out
fabric as the front blind
it can be drawn up and
work as a stylish fascia.*

*With matching bottom
rails and chains they can
work great with any
decors.*

*If you don't want the
sheer of the Sunscreen
fabrics you can go with a
light filtering fabric that
has a texture or imprint
to give you a stunning
feature blind.*

*For something a bit flash you can use the Dual rollers on all sorts
of openings from Living/dining to hallways and Bedrooms.*

*Anywhere you need the natural light by day and then Block out
for night privacy.*
