

Panel Glide Blinds

Panel Glides are the modern answer to Verticals on large openings sliding doors and large windows.

They can complement roller blinds and roman blinds using the same fabrics.

They can be centre opening or bunched to one side.

They are minimal and sleek looking to suit the modern apartment.

With using any blind fabric they can be block out, light filtering or even sunscreen ranges.

Panel Glides can be used as room dividers and can be a great feature in a room. With using different fabrics in each panel they can be a splash of colour and style in any room.
